Bhavan, Mumbai / Pune

SUBJECT: Formal Representation for Granting Equivalence & Eligibility to Health Sanitary Inspector (HSI) Diploma Holders of Lal Bahadur Shastri Paramedical Skill and Training Council (Govt. Approved Body, Registered in Maharashtra Since 2021) in all Maharashtra Government, BMC (Mumbai), PMC (Pune), and Municipal Local Body Recruitment Drives — Reg.

REFERENCE: 1. Ongoing & Upcoming Recruitment Advertisements for Sanitary Inspector Health Inspector MPW & Sanitation Staff

2. Council's Government Approval, Statutory Registration Documents & Maharashtra Paramedical Compliance Track Record Since 2021.

Respected Sir / Madam,

With highest regards and profound respect, on behalf of **Lal Bahadur Shastri Paramedical Skill and Training Council**, we respectfully place this formal representation before your esteemed offices in Mumbai and Pune. Our Council is a Government Approved Autonomous Body dedicated to quality paramedical education, vocational healthcare training, and public health workforce development. We take immense pride in stating that the Council has been actively functioning and consistently maintaining recognized registrations in Maharashtra Paramedical education framework since the year 2021. We represent thousands of qualified, skilled, and certified students who have completed the comprehensive Diploma in Health Sanitary Inspector (HSI) across the State of Maharashtra.

1. Government Approved Standing & Readiness to Furnish Legal Documentation

A. K. Kishor

We solemnly submit and place on record the following fundamental facts regarding the statutory authenticity and legal standing of our Council:

Government Approved Institution: Lal Bahadur Shastri Paramedical Skill and Training Council is an officially registered and Government Approved paramedical education and vocational training body adhering strictly to statutory norms.

Active in Maharashtra Since 2021: Since the year 2021, the Council has been successfully conducting and registering students under paramedical and allied healthcare disciplines in Maharashtra with full transparency, formal examinations, and rigorous clinical/field training.

Unconditional Readiness for Legal Scrutiny & Document Submission: If any department, scrutiny board, or recruitment authority (including UDD Mantralaya, BMC Mumbai, PMC Pune, or DHS) demands any legal document, statutory registration certificate, affiliation deed, government gazette notifications, syllabus matrix, or verified student credentials, the Council is fully prepared and readily willing to provide all original, certified, and authenticated legal documents immediately upon demand.

2. Statement of Grievance & Current Recruitment Hurdles

In recent and periodic recruitment advertisements issued by the Urban Development Department, Brihanmumbai Municipal Corporation (BMC), Pune Municipal Corporation (PMC), Zilla Parishads, and Municipal Councils across Maharashtra, eligibility criteria for the posts of Sanitary Inspector, Health Inspector, Swachhta Adhikari, and Multi-Purpose Health Worker (MPW) frequently suffer from restrictive or archaic qualification clauses.

Certain recruitment advertisements restrict qualifications only to single legacy state institutions or narrow lists, inadvertently creating bureaucratic barriers for accredited HSI diploma holders from recognized and government-approved skill councils.

This exclusion deprives thousands of qualified Maharashtra youth—trained under government-approved paramedical norms since 2021—from equal participation in state and municipal public employment.

Crucially, major urban local bodies like Mumbai (BMC) and Pune (PMC) continually require qualified, field-ready public health personnel for monsoon epidemic management (Dengue, Malaria, Leptospirosis), Swachh Bharat Mission (Urban), and solid waste audits.

3. Academic Rigor & Comprehensive Syllabus of HSI Diploma

The Health Sanitary Inspector (HSI) diploma program imparted by our Council covers an exhaustive syllabus with hands-on practical training designed in perfect alignment with municipal public health and sanitation requirements:

Domain / Subject Area	Core Technical Competencies Imparted	Relevance to Municipal Bodies (BMC / PMC)
Epidemiology & Disease Control	Vector-borne disease surveillance (Dengue, Malaria, Leptospirosis, Swine Flu), disinfection, epidemic response.	Directly aligned with ward-level health and vector control operations.
Solid & Liquid Waste Management	SWM Rules 2016, source segregation, composting, sanitary landfills, sewage treatment & drainage inspection.	Essential for Swachh Bharat Mission (Urban) compliance and waste audits.

Environmental Sanitation & Water Quality	Water sampling, chlorination techniques, drainage hygiene, contamination prevention protocols.	Critical for densely populated wards, urban slums, and chawls in Mumbai/Pune.
Food & Commercial Hygiene	Inspection of food establishments, markets, slaughterhouses, cold chain integrity, and FSSAI sanitation norms.	Enforces public food safety across municipal markets.
Bio-Medical Waste & Hospital Hygiene	BMW Management Rules, hospital waste segregation, sterilization, nosocomial infection control.	Vital for municipal hospitals, maternity homes, and civic dispensaries.
Public Health Laws & Vital Statistics	Birth & death registration protocols, Public Health Acts, municipal corporation bylaws, disaster response.	Assists regular civic administrative governance and compliance.

4. Constitutional, Legal & Policy Grounding

Articles 14 & 16 of the Constitution of India: Guarantees equality of opportunity in public employment. The exclusion of accredited and government-approved diploma holders based solely on rigid nomenclature violates principles of natural justice and meritocracy.

National Skill & Paramedical Policy Alignment: Government of India mandates active integration of recognized paramedical and vocational diploma holders into national and state health service cadres.

Public Interest & Workforce Availability: Broadening the eligibility criteria enables municipal corporations in Mumbai, Pune, and throughout Maharashtra to select the best-trained talent through transparent, open competitive selection.

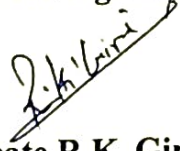

5. Specific Prayers & Administrative Demands

Lal Bahadur Shastri Paramedical Skill and Training Council respectfully submits the following prayers for immediate administrative direction:

- Formal Recognition & Equivalence in Recruitment Rules (RR):** Issue explicit Government Resolutions (GR) / administrative orders declaring that 1-year and 2-year Diploma in Health Sanitary Inspector (HSI) awarded by Lal Bahadur Shastri Paramedical Skill and Training Council (Govt. Approved Body, active in Maharashtra since 2021) is fully valid and equivalent for all Sanitary Inspector / Health Inspector / Swachhta Adhikari / MPW posts across Maharashtra.
- Uniform Eligibility in BMC (Mumbai) and PMC (Pune):** Direct recruitment cells of Brihanmumbai Municipal Corporation and Pune Municipal Corporation to explicitly accept HSI Diploma holders in all ongoing and upcoming vacancy notifications.
- Provisional Permission in Active Recruitment Drives:** Permit qualified HSI Diploma candidates to submit application forms on a provisional basis for currently advertised vacancies while formal departmental equivalence recording is processed.
- Submission of Legal Documents & Equivalence Committee Scrutiny:** The Council stands fully ready to submit any legal documentation, registration certificates, syllabus blueprints, or student registers demanded by the Directorate of Health Services (DHS) / Urban Development Department or any Equivalence Committee.

Official Clarification / Corrigendum on Recruitment Portals: Publish a clear advisory/corrigendum on state recruitment portals ensuring examining agencies do not reject valid applicants holding our Council's HSI Diploma.

Authorized Signatory
